Skills Summary

- JavaScript
- React JS
- Node JS
- Express JS
- MongoDB
- Next JS
- Html5
- Css3
- Tailwind CSS
- Responsive web design
- Git/GitHub

Projects

1. E-commerce Platform:
- Built a full-stack e-commerce platform using the MERN stack.
- Implemented product listing, shopping cart functionality, and secure checkout process.
- Designed and styled user interfaces with Tailwind CSS for optimal user experience.

2. Blog Application:
- Developed a blogging application using Node.js and Express.js for the backend and React.js for the frontend.
- Integrated Tailwind CSS for styling and responsiveness.
- Implemented user authentication and authorization features.

Experience

Freelancer MERN Stack Developer
2020 - 2024
- Developed and deployed multiple web applications using the MERN stack for various clients.
- Collaborated directly with clients to understand their requirements and translate them into technical solutions.
- Implemented responsive designs using Next.js and Tailwind CSS to create visually appealing user interfaces.
- Integrated backend services with MongoDB databases and supabase to manage and store application data efficiently.
- Utilized version control systems such as Git to manage project repositories and facilitate collaboration with clients.
- Provided ongoing support and maintenance for deployed applications, including troubleshooting and bug fixes.
